The Ministry of Investment of Saudi Arabia (MISA) has facilitated four more investment agreements on the sidelines of the Future Investment Initiative (FII6) across the education, entertainment and biotechnology sectors. The agreements signed showcase the government's commitment to transforming quality of life in the Kingdom, coupled with investor recognition of the vast opportunities available.

### Our Goal

investment initiative (PII), across the education, entertainment and technology, sectors. The agreement signed between the government's commitment to transforming quality of life in the Kingdom, coupled with investor recognition of the vast opportunities available.

## Test Subheading

INVEST SAUDI is Saudi Arabia's nation-wide investment attraction and promotion brand. Overseen by the Ministry of Investment (MISA), INVEST SAUDI facilitates investments in Saudi Arabia that support the country's economic growth and position it at the forefront of the global business world. INVEST SAUDI is designed to provide a clear, unified, and effective message about the Kingdom's investment opportunities to both foreign and domestic investors, as well as private sector businesses. It is therefore the primary point of contact for foreign investors seeking assistance before, during, and after their entry into the Kingdom. As the Kingdom is living in an era where the economy is thriving and the nation is reviving,

## Wealth

A powerful G20 economy with macroeconomic fundamentals that offer long-term stability and provide a sustainable platform for investment.

## Transparency

Enabling a raft of business reforms aimed at easing investment and bolstering investor support in the Kingdom.

## Opportunity

Creating unique opportunities in new sectors in the Kingdom that have hitherto been restricted to international investment.

## Ways to meet our expectations:

Large and growing market demand for water Global leader in desalination Strong commitment to develop infrastructure beyond desalination A core component of the strategy is the Global Supply Chain Resilience Initiative launched on Sunday. The initiative aims to enable global investors to create low-risk, low-cost and low-carbon supply chains leveraging the Kingdom's natural resources, strong logistics infrastructure and untapped potential. In its launch phase, the initiative aims to attract more than US\$10bn of industrial and service investments in global supply chains to the Kingdom.

## What We Do?

A core component of the strategy is the Global Supply Chain Resilience Initiative launched on Sunday. The initiative aims to enable global investors to create low-risk, low-cost and low-carbon supply chains leveraging.

1

### Warehouse Automation

Localization of warehouse automation technology (e.g., goods-to-person, sortation systems) to improve efficiency of existing warehousing infrastructure

A core component of the strategy is the Global Supply Chain Resilience Initiative launched on Sunday.
